

# Miami Lakeway North Resurfacing & Drainage Improvement Project

## Project:

To improve the drainage and pavement of the roadway.

## Cost:

\$640,000.00

## Funding Source:

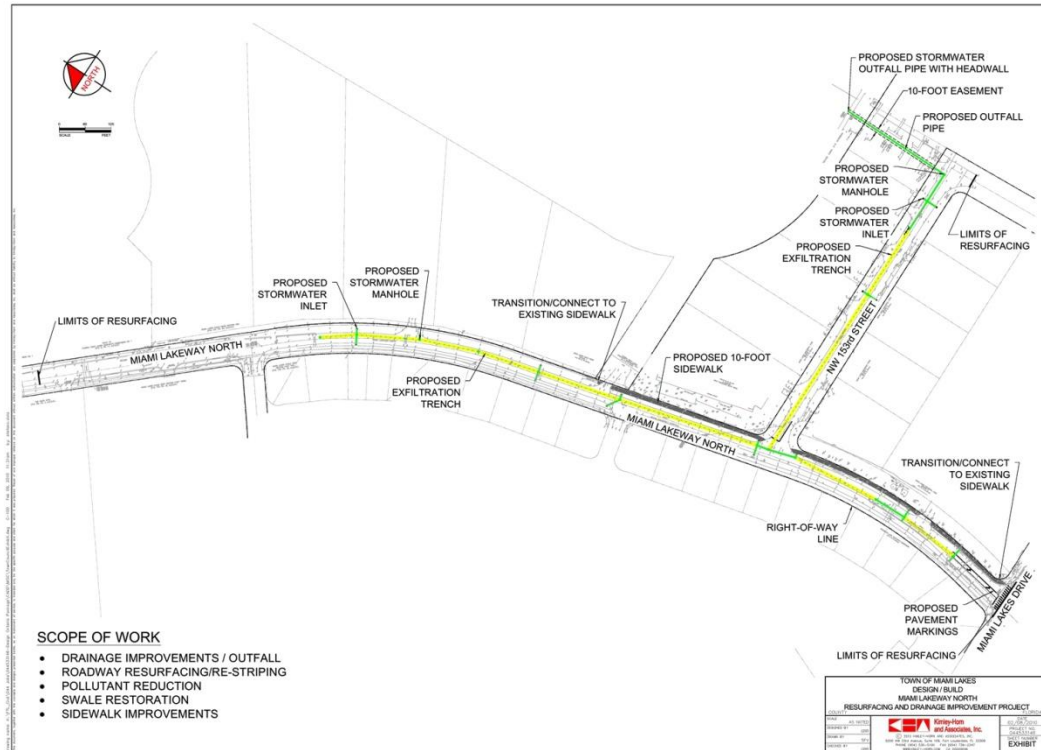

ARRA stimulus funds and the Town of Miami Lakes capital improvement fund

## Project contract:

Acosta Tractors Inc.  
f/ A&P Consulting  
Transportation  
Engineers, Corp.

## Current status:

Currently in the design phase.

The design and construction of the Miami Lakeway North Resurfacing and Drainage Improvement Project has been awarded to Acosta Tractors Inc. f/ A&P Consulting Transportation Engineers, Corp. for the amount of \$640,000.

This project is an approved economic stimulus project funded through the American Recovery and Reinvestment Act of 2009 (ARRA). The project consists of drainage improvements and paving on Miami Lakeway North from east of NW 67 avenue south to Miami Lakes Drive. The work includes the installation of catch basins, manholes, pipe, infiltration trench, storm water outfall, stabilized sub grade, limerick base, asphalt and the raising of existing manholes and valves. This project also includes the addition of a 10-foot wide concrete sidewalk on the east side of Miami Lakeway North from Miami Lakes Drive to just north of 153rd street. The project includes the design of the project, obtaining the construction contractors, and obtaining all permits from The Department of Environmental Resource Management (DERM) and any and all other local, state, or federal permits.

Currently the project is in the design and review stage; next the various permit applications will be submitted. Once approved the construction will be scheduled to start.
